

U.S. Customs and Border Protection Certifies Elbit Systems of America's In-fill Radar and Tower System

February 1, 2018

FORT WORTH, Texas, Feb. 1, 2018 /PRNewswire/ -- U.S. Customs and Border Protection (CBP) certified for operational use an in-fill radar system and tower provided by Elbit Systems of America. The system now provides CBP Air and Marine Operations agents another important capability to protect U.S. borders.

Elbit Systems of America was awarded a contract by CBP in 2017 to provide an in-fill radar system and tower in Texas. The contract supports CBP Air and Marine Operations and extends border security solutions into the air domain.

"Elbit Systems of America is a trusted provider and integrator of advanced technology border solutions for Air & Marine Operations, Field Operations and Border Patrol agents," stated Raanan Horowitz, president and chief executive officer of Elbit Systems of America. "Elbit America's integrated border security solutions provide increased situational awareness and improved border surveillance coverage."

Elbit Systems of America, LLC, partnered with C Speed, LLC to incorporate its LightWave Radar technology used for detecting small and low-flying airborne threats in a high clutter environment. C Speed's LightWave radar has also been deployed worldwide to mitigate the effects of wind turbine clutter in similar environments

This program is another example of Elbit Systems of America delivering solutions supporting CBP's mission to protect U.S. borders. Separately, the company is the prime contractor and system integrator for the Integrated Fixed Tower (IFT) system, currently deployed along the Arizona border. Elbit Systems of America furnishes the sensor towers with radar, day/night cameras, and command & control software that correlates sensor information to provide a single operating picture. Information from the towers is networked into Border Patrol Station Command and Control Centers. This system increases situational awareness for Border Patrol Agents. The IFT's high reliability and proven contractor logistics support provides CBP with 24/7 surveillance coverage.

About Elbit Systems of America, LLC

Elbit Systems of America is a leading provider of high performance products, system solutions, and support services focusing on the defense, homeland security, commercial aviation, and medical instrumentation markets. Forward Looking Statement

This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward-looking statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.
