

## **U.S. Customs and Border Protection, Tohono O'odham Nation Agree On Border Security Solution by Elbit Systems of America**

June 26, 2019

### **Integrated Fixed Towers system will expand its deployment across the U.S. southern border**

FORT WORTH, Texas, June 26, 2019 /PRNewswire/ -- Elbit Systems of America was awarded an approximately \$26 million contract from the United States Customs and Border Protection (CBP) to install an Integrated Fixed Towers (IFT) system in the U.S. Border Patrol Casa Grande Area of Responsibility (AoR) in Arizona. The project will be performed over a one-year period. To date, Elbit Systems of America has been awarded a number of contracts from CBP to install IFT systems in numerous AoR's covering a total of approximately 200 miles of the Arizona-Mexico border.

The IFT system comprises a command and control center and a networked multi-tower, multi-sensor system that continuously monitors portions of the U.S. southern border. Information from the towers is sent to the command and control center and a Border Patrol Station providing agents with long-range, persistent surveillance and situational awareness that allows them to dispatch an appropriate response. This capability provides greater safety for the agents patrolling the border in the Casa Grande AoR.

President and Chief Executive Officer Ranaan Horowitz said, "Elbit Systems of America is honored to have been selected by the U.S. Customs and Border Protection and the Tohono O'odham Nation to provide a solution to suit the needs of those living and working along the border in the Casa Grande Area of Responsibility. This project clearly demonstrates our company's mission to provide innovative solutions that protect and save lives."

In addition to the company's Integrated Fixed Towers, Elbit Systems of America has developed a number of other border security measures and technology. More on these solutions is available at [www.nextgenborder.com](http://www.nextgenborder.com).

### **About Elbit Systems of America, LLC**

### **Forward Looking Statement**

This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward-looking statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.
