

Elbit Systems of America awarded approx. \$50 million ID/IQ contract to support U.S. Army helicopter pilots

October 7, 2020

FORT WORTH, Texas, Oct. 7, 2020 /PRNewswire/ -- On behalf of the United States Army, the Defense Logistics Agency has awarded Elbit Systems of America a five-year firm-fixed price, indefinite delivery/indefinite-quantity contract with a maximum value of approximately \$50 million for the production of spare parts in support of the Aviators' Night Vision Imaging System/Head-Up Display system (ANVIS HUD). An initial order for \$17.9 million was recently placed under this contract to be supplied until 2023.

The ANVIS HUD is Elbit Systems of America's current day and night display that connects to the helmets of Army helicopter pilots. The system presents important information in front of the pilot's eyes, such as altitude, speed and heading. The ANVIS HUD allows the pilot's head to remain upright and looking out of the aircraft, with all applicable information presented before their eye, instead of looking down or inside the cockpit to view information from various sensors.

"Provisioning ANVIS HUD spares ensures U.S. Army pilots always have the equipment available to support aircraft readiness," said Raanan Horowitz, President and CEO of Elbit Systems of America. "Our company has a long history of supplying the ANVIS HUD and we're dedicated to continuing to supply these systems that aid performance, increase operator situational awareness, and ultimately Warfighter safety."

Elbit Systems of America produces and sustains all of the U.S. Army's helmet mounted displays in the UH-60, CH-47, and AH-64 fleets and recently won the Common Helmet Mounted Display program to begin upgrading the display on select U.S. Army airframes. Using these existing programs and investing in the future, we are focused on improving mission effectiveness with increased aircrew situational awareness. We understand our products remain key components of U.S. Army Aviation modernization for both the enduring fleet and the new Future Vertical Lift platforms.

Forward Looking Statement

This press release may contain forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended and the Israeli Securities Law, 1968) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current facts. Forward-looking statements are based on management's current expectations, estimates, projections and assumptions about future events. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions about the Company, which are difficult to predict, including projections of the Company's future financial results, its anticipated growth strategies and anticipated trends in its business. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; changes in global health and macro-economic conditions; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; changes in the competitive environment; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities

and Exchange Commission. All forward-looking statements speak only as of the date of this release. Although the Company believes the expectations reflected in the forward-looking statements contained herein are reasonable, it cannot guarantee future results, level of activity, performance or achievements. Moreover, neither the Company nor any other person assumes responsibility for the accuracy and completeness of any of these forward-looking statements. The Company does not undertake to update its forward-looking statements.

Elbit Systems Ltd., its logo, brand, product, service and process names appearing in this Press Release are the trademarks or service marks of Elbit Systems Ltd. or its affiliated companies. All other brand, product, service and process names appearing are the trademarks of their respective holders. Reference to or use of a product, service or process other than those of Elbit Systems Ltd. does not imply recommendation, approval, affiliation or sponsorship of that product, service or process by Elbit Systems Ltd. Nothing contained herein shall be construed as conferring by implication, estoppel or otherwise any license or right under any patent, copyright, trademark or other intellectual property right of Elbit Systems Ltd. or any third party, except as expressly granted herein.
