Elbit Systems Reports Impact on its Fourth Quarter 2018 Financial Results Due to Acquisition of IMI Systems

Haifa, Israel, 29 January 2019 - Elbit Systems Ltd. (NASDAQ: ESLT, TASE:ESLT) ("Elbit Systems" or "the Company") announced today that, following the completion of the acquisition of IMI Systems Ltd. ("IMI") shares on November 25, 2018, and a reorganization in connection with the IMI acquisition, it expects to record in the fourth quarter of 2018 expenses estimated in the range of 65-75 million dollars. These costs will be recorded mainly in the "Cost of Revenues" line item in our Consolidated Statement of Income and will be eliminated in the Non-GAAP results due to the non-recurring nature of the expense.

The Company reorganized a number of its activities, in connection with the IMI acquisition. This reorganization included, among other measures, the establishment of two business divisions:

- a. The Land Systems Division to be focused on land-based systems, to include military vehicle systems, artillery systems and the IMI activities; and
- b. The C4I and Cyber Division focused on command & control, radio, communication, homeland security and cyber intelligence activities.

This reorganization is intended to improve the synergy within the Company with respect to the acquired activities and better address market requirements and customer support. The Company believes that the acquisition of IMI and the reorganization will positively affect the future business of Elbit Systems.

The overall impact on the financial results for the fourth quarter will be included in the Company's report for the quarter, which is planned to be released in March 2019.
