

## **Elbit Systems of America selected by U.S. Air Force to compete for Joint All Domain Command and Control task orders**

November 9, 2020

FORT WORTH, Texas, Nov. 9, 2020 /PRNewswire/ -- The United States Air Force has selected Elbit Systems of America to compete for future task orders within the service's Joint All-Domain Command and Control (JADC2) Indefinite-Delivery/Indefinite-Quantity (ID/IQ) contract.

The purpose of the JADC2 ID/IQ is to develop and operate systems as a unified force across all domains (air, land, sea, space, cyber, and electromagnetic spectrum) in an open architecture family of systems that enables capabilities via multiple integrated platforms. With this selection, Elbit Systems of America can compete for awards associated with the maturation, demonstration, and proliferation of capability across platforms and domains, leveraging open systems design and agile software and algorithm development in order to enable JADC2.

Elbit Systems of America is a market leader in providing Artificial Intelligence (AI)-enabled, sensor-fused, and networked data to improve situational awareness in the airborne and ground-combat environments. Our C5ISR solutions are part of an extensive portfolio including networked combat and communications systems, mobile command and control capability, autonomous ISR solutions, and AI-enabled decision aids. Combined with our world leading expertise in avionics, helmet mounted and cockpit displays, our solutions provide warfighters unmatched ability to assess and understand their environment, increasing their lethality, survivability, connectivity, and ultimately, mission accomplishment.

"Elbit Systems of America is honored to help the U.S. Air Force realize the vision for connecting sensors and effects across multiple domains," said Raanan Horowitz, President and CEO of Elbit Systems of America. "Our concept for JADC2 facilitates our Warfighters enjoying an asymmetric advantage by providing tools that shorten reaction time and aid in decision-making. To achieve this, we are developing networked, AI-enabled solutions that fuse sensors and data to increase situational awareness and deliver increased lethality."

### **About Elbit Systems of America, LLC**

Elbit Systems of America, headquartered in Fort Worth, Texas, is a leading provider of high-performance products, system solutions, and support services focusing on the defense, homeland security, law enforcement, commercial aviation, and medical instrumentation markets. With facilities throughout the U.S., Elbit Systems of America is dedicated to supporting those who contribute daily to the safety and security of the United States. Elbit Systems of America, LLC is wholly owned by Elbit Systems Ltd. (NASDAQ: ESLT) (TASE: ESLT), a global high technology company engaged in a wide range of programs for innovative defense and commercial applications. ### **Forward Looking Statement**

This press release may contain forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended and the Israeli Securities Law, 1968) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current facts. Forward-looking statements are based on management's current expectations, estimates, projections and assumptions about future events. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions about the Company, which are difficult to predict, including projections of the Company's future financial results, its anticipated growth strategies and anticipated trends in its business. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; changes in global health and macro-economic conditions; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; changes in the competitive environment; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. Although the Company believes the expectations reflected in the forward-looking statements contained herein are reasonable, it cannot guarantee future results, level of activity, performance or

achievements. Moreover, neither the Company nor any other person assumes responsibility for the accuracy and completeness of any of these forward-looking statements. The Company does not undertake to update its forward-looking statements.

Elbit Systems Ltd., its logo, brand, product, service and process names appearing in this Press Release are the trademarks or service marks of Elbit Systems Ltd. or its affiliated companies. All other brand, product, service and process names appearing are the trademarks of their respective holders. Reference to or use of a product, service or process other than those of Elbit Systems Ltd. does not imply recommendation, approval, affiliation or sponsorship of that product, service or process by Elbit Systems Ltd. Nothing contained herein shall be construed as conferring by implication, estoppel or otherwise any license or right under any patent, copyright, trademark or other intellectual property right of Elbit Systems Ltd. or any third party, except as expressly granted herein.
